3d Printing Business 3d 3d Printing How To Make

In this type of 3D printing, the material, usually ABS or PLA plastic, is melted down by the printer head and extruded onto the printer bed, similar to how ink is deposited onto a page on a paper printer. The extruder head of the printer lays down material layer by layer to build up a 3D model, and each layer fuses to the previous one as it cools.

3D Printing Basics : 15 Steps (with Pictures) - Instructables

3D Design for 3D Printing: If you're going to have a 3D Printer, you have to be able to design things to print with it. Thingiverse can only take you so far, you know. The only problem with Makerbot/RepRap style 3D printers is that they have limitations. Some overhangs can'...
